## Distancing in the RIB as a measure to reduce risk of contagious diseases

We opened our services again in June 2020 with reduced capacity, and a regime that have served us well. Since the Covid-19 outbreak we have had close to 1 500 customers in our RIB boats, without any reported case of infections.

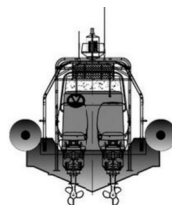

The Norwegian government maintain 1m distancing in [their pressrelease 02.02.2022](#), which means that we continue the seat arrangement we have had since June 2020.

This means that we put more than one cohort in the boat at the same time, being able to take these situations; (2+2+3), (2+1+4), (3+5), (4+4), (3+6), (2+2+1+1), (3+2+1), 5, 6, 7, 8, 9, 10, 11 and 12.

We need a **minimum of 5 passengers** in the boat, which means example 7 is not an option. The minimum can be set higher for some tours, to cover expenses. When an escort is agreed in advance, we can place this person behind the windshield together with the captain.

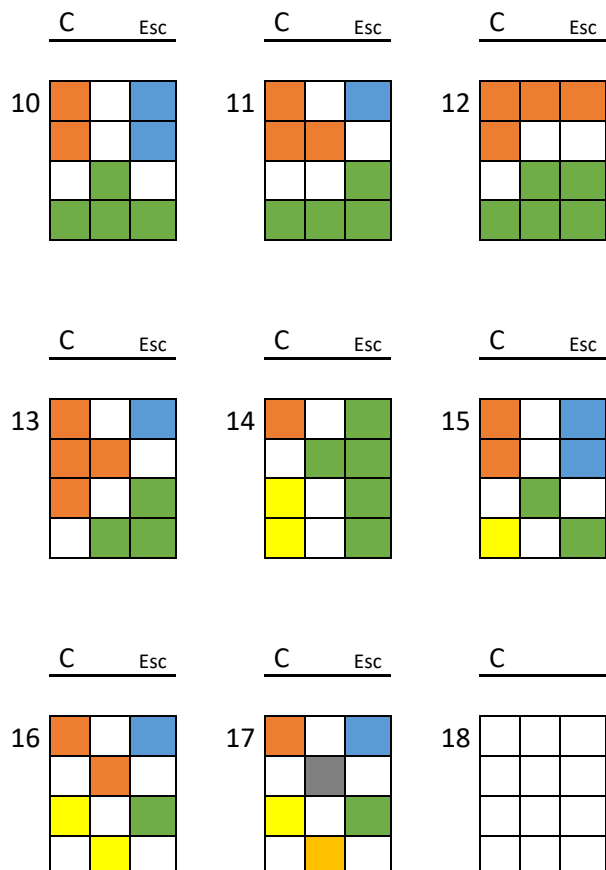

We will not question if a travel agent, a private group or shorex makes a booking for a group, claiming for example that all 12 are from the same cohort.

# HARDANGER FJORDSAFARI

EXPERIENCE HARDANGER FROM THE FJORD

There are some signals from the Norwegian government that the 1m distancing also will come to an end soon. It remains to be seen if we return to no restriction's when that happens, but a compromise can be that we allow cohorts to have contact diagonally like this:

Then we are able to take these situations; (2+2+4), (3+1+4), (1+2+5), (4+4), (3+6), (2+2+2+1), (1+1+1+1+1+1), 5, 6, 7, 8, 9, 10, 11 and 12.

Should a travel agent, a private group or shorex approach us before the 1 meter rule is lifted, claiming they have only one cohort, but want alternative 10-17 anyway...that will be possible. We would like to be informed about the setup chosen, latest 24hrs before departure. Please send by mail to [hardangerfjordsafari@gmail.com](mailto:hardangerfjordsafari@gmail.com)

Mvh
